

GREEN BRICK HOUSE

AL-VI-C-121

Latrobe Street, Barton

ca. 1865

The Green Brick House consists of a two story, five bay wide, "L" shaped structure, with brick laid in American Common Bond. The house is believed to have been built circa 1865, which is soon after the Town of Barton was laid out by William Shaw, Jr. Shaw first divided the town into sixty six lots and it is within these original plots that the Green House was built.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Green Brick House is located on Latrobe Street in Barton, Allegany County.

The Green House is an "L" shaped structure that is two stories high and five bays wide and is constructed of brick laid in American Common Bond. The entire structure rests on a low stone foundation. The roof is hipped and is covered with asphalt roofing material. Windows in the structure are double hung, pegged, wooden sash frames with four over four lights and plain trim. Each is topped by a flat structural arch. The main entrance is located on the southeast facade and features a replaced door and hardware with an original transom light. A three bay hipped roof end porch is also located in the southeast facade. The porch has a wide soffit supported by scrolled brackets, columns and a ballustrade. Two original corbeled brick chimneys are located in the the inside ends of the building's two wings.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The Green Brick House is believed to have been built circa 1865 as a residence for a more affluent citizen of Barton. The town was laid out into 66 lots by William Shaw Jr. in 1853 and it was part of the original Shaw estate.¹ The brick house itself is located on Latrobe Street where a number of larger and more stylish structures are erected, considering that Barton is a small coal mining town.

The house is structurally sound and retains most of the original features, making it an architectural reminder of a way of life once found in a small mining town.
